PROBLEM STATEMENT

Students and professionals need a digital platform to showcase their skills, projects, and achievements. A personal portfolio website helps create an online identity but many lack the technical knowledge to design and develop one effectively.

Edit with WPS Office

PROJECT OVERVIEW

This project focuses on creating a personal portfolio website. It highlights the user's educational background, technical skills, projects, and achievements in a structured and visually appealing way. The portfolio serves as a professional profile accessible online.

Edit with WPS Office

WHO ARE THE END USERS?

Students who want to display their academic and project work

Job seekers who need an online resume and portfolio

Professionals showcasing skills and achievements

Recruiters and employers who review candidate profiles

Edit with WPS Office

TOOLS AND TECHNIQUES

HTML5 – for structuring web content

CSS3 – for styling and layout design

JavaScript – for interactivity and dynamic features

VS Code – as the code editor

Browser – for testing and deployment

Edit with WPS Office

POTFOLIO DESIGN AND LAYOUT

A clean and responsive design for all devices

Sections: Home, About Me, Skills, Projects, Contact

Consistent color themes and fonts

User-friendly navigation for smooth experience

Edit with WPS Office

FEATURES AND FUNCTIONALITY

Responsive design (works on mobile, tablet, and desktop)

Easy navigation with menu links

Project showcase with descriptions and links

Contact form for communication

Modern design with simple animations

Edit with WPS Office

RESULTS AND SCREENSHOTS
